

49. (New) The method of claim 19 further-comprising incorporating one or more deoxyribonucleotide analogs into the mRNA portion of said mRNA-cDNA hybrid.
50. (New) The composition of claim 23, wherein a nucleotide analog is incorporated into the cDNA portion of said mRNA-cDNA hybrid.
51. (New) The composition of claim 50, wherein the nucleotide analog is selected from the group consisting of uracil, inosine, xanthine, hypoxanthine, labeled nucleotide, 7-deaza-dNTP, methylthio-linked nucleotide, phosphothio-linked nucleotide, morpholino nucleotide and peptide nucleic acid (PNA).
52. (New) The composition of claim 50, wherein the nucleotide analog is a ribonucleotide.
53. (New) The composition of claim 50, wherein the nucleotide analog is a deoxyribonucleotide.
54. (New) The composition of claim 23, wherein one or more deoxyribonucleotide analogs is incorporated into the mRNA portion of said mRNA-cDNA hybrid.

These new dependent claims are fully supported by the specification as filed.
See, for example, page 5, ll. 12-16 and the definition of "nucleotide analogs" on page 11.

FEE DUE TO FILE THIS AMENDMENT

This amendment has added 9 new dependent claims. Thus, the fees due to this amendment are 9 X \$9 for a total of eighty one dollars (\$81.00). Please charge Deposit Account No. 50-1192, Docket No. 13761-7024 in the amount of \$81.00 to cover the fees. A duplicate copy of this sheet is enclosed.
